## 16mm Figure Catalogue 2021

A growing range of highly detailed 16mm resin figures sculpted by Simon Harris of ModelEarth.

The wonders of shrinking resin and modern technology allow us to offer 16mm versions of the original ModelEarth 7/8ths figure range. These figures are supplied in kit form and will require assembly and painting.

Summer Diesel driver

Four pieces of resin

£12.00

Winter Diesel driver

Four pieces of resin

£12.00
